Green Space Meeting

Saturday Sept 14 - 10am, Parish Center Presentation Sponsored by St Anthony 'Care for Creation' team

Since St Anthony has so much green space, we are considering converting a small part of it to a tall grass prairie, which has many ecological benefits. To help us understand some of these benefits, we have invited in a special guest to speak to us!

Presentation Title: A Little Patch of Prairie: Opening our Lawns to Native Plants

By Paul Resnick

Paul's presentation encourages homeowners to replace some of their lawn turf with native prairie plants. Paul's own prairie experience along with Doug Tallamy's book *Nature's Best Hope: A New Approach to Conservation That Starts in Your Yard* will inform his presentation, looking at major obstacles to homeowner's converting lawn to prairie and how to overcome those obstacles.

The presentation will last 45 minutes with 15 minutes for questions and answers.

From Fulton Sheen

Patience is the great remedy against becoming panicky.

To be able to use reason and good judgment when everyone else goes to pieces not only saves self, but also neighbor.
